Subject: FW: Safewater: Elevated Chlorine Levels in Drinking Water

Emma,

Please respond to this citizen inquiry. This looks like it should just be directed to FDEP, though it will be worth looking at past compliance to see if Cl2 or DBPs has been a problem. Thanks!

-Brian

Subject: Safewater: Elevated Chlorine Levels in Drinking Water

Good afternoon Brian,

Please respond to this inquiry regarding apparent repeated elevated levels of chlorine from the specified drinking water plant in Palatka, FL.

Thank you,
Safewater

RE: the level of chlorine in the water system

There is an extremely high smell of chlorine in the water there is an extremely high smell of chlorine in the drinking water from this water plant

The smell and taste of the chlorine is extremely unpleasant

This is not the first time this water plant has had problems with the chlorine levels this is concerning me as to having health concerns due to the Miss use of chlorine from this water plant

Thank you very much for your time in this matter
